EXPERIMENT-4

- A) Create a prototype with familiar and unfamiliar navigation elements. Evaluate ease of use with different user groups using proto.io

AIM: The aim is to develop a prototype incorporating both familiar and novel navigation elements and assess usability among diverse user groups using Proto.io.

B) Create a prototype with familiar and unfamiliar navigation elements. Evaluate ease of use with different user groups using wireflow

The aim is to design a prototype with both well-known and new navigation elements and measure user-friendliness across different user groups using Wireflow.
